Subject: - Adjustment of Futures and Options contract of WIPRO LTD on account of Bonus issue

In pursuance of the Exchange circular no. 20180709-2 dated July 9, 2018 regarding review of adjustment of Corporate Actions for stock futures and options contracts in line with SEBI master circular no. SEBI/HO/MRD/DP/CIR/P/2016/135 dated December 16, 2016, circular No CIR/MRD/DoP-1/P/00108/2018 dated July 05, 2018, trading members of the Exchange are hereby informed the following:

WIPRO LTD (Symbol - WIPRO) has fixed December 3, 2024, as Record Date for the purpose of issuance of Bonus Shares in the proportion of 1 (One) Equity Shares for 1 (One) fully paid Equity Share.

Symbol : WIPRO
Corporate Action : Bonus
Ex-date : Tuesday, December 3, 2024

Accordingly, the symbol **WIPRO** will be available for trading on Monday, December 2, 2024, only till 15:30 hours.

A) Adjustment Factor:

If the ratio of Bonus is say A:B, the adjustment factor is defined as $(A+B)/B$. Therefore, the adjustment factor for Bonus in this case would be $(1+1)/1 = 2$

B) Adjustments for Futures & Options Contracts:

1. **Strike Price:** The adjusted strike price shall be arrived at by dividing the old strike price by the adjustment factor (2).
2. **Contract Size:** The adjusted contract size shall be arrived at by multiplying the old contract size by the adjustment factor (2).

The revised contract size would therefore be as under:

- A. Existing Contract Size – 18 Index Point
- B. Adjustment factor – 2
- C. Revised Contract Size – $A * B = (18 * 2) = 36$ Index Point

3. **Position:** The adjusted position shall be arrived at by multiplying the old position by the adjustment factor.
4. **Futures Price:** The adjusted futures price shall be arrived by dividing the old futures price by the adjustment factor (2). The adjusted futures price shall be rounded off to the nearest tick size.

For any further clarifications, Trading members are requested to contact their designated Relationship Managers.
